Dear Elder Companion,

Welcome to the ElderHelp, Elder Companion Program (ECP).

The Elder Companion Programs provide a variety of meaningful opportunities for volunteers, which connect people to people. We hope you will find your experience as an Elder Companion Volunteer one of the most rewarding, fulfilling times in your life. You will make a difference in the lives of seniors by helping to alleviate the loneliness and isolation with your visits, and at the same time enrich your own life while providing a much-needed service in our community.

Your volunteer services will be recognized and appreciated, not only by the clients you will visit, but also by their families, service providers and the community.

The Elder Companion Program also works with the Panhandle Health Department's Senior Companion Program which offers a small stipend to low income seniors who want to volunteer as companions for their program. If you would like additional information on their program, please contact us at the number below.

We hope this ECP handbook will be of benefit to you. Please take the time to read it carefully. Should you have any questions, please feel free to call our office, 208 209-1143.

Thank you for your loving and caring heart, and your commitment of service and time.

Sincerely,

The ElderHelp Board of Directors and the
Elder Companion Program Administrator

GENERAL INFORMATION

The Elder Companion Program (ECP) is a local program that provides volunteers with the opportunity to apply their life experiences, kindness and love in meeting community needs. Our volunteers empathize with the elderly and offer a simple act of friendship. Volunteers need good social skills – being able to chat and listen with interest – and a sense of humor. Drivers must be safe, competent, and able to support and assist clients who are frail.

Elder Companions serve one-on-one with the elderly, some of whom may have difficulty completing everyday tasks. They visit, go to local community events and senior centers, take trips to the library, assist with grocery shopping, and provide transportation to medical appointments. Most importantly they are someone to just be there and listen.

They can also alert doctors and family members to potential problems. Elder Companions may provide short periods of relief to primary caregivers. Because of the program, many of our senior citizens are able to live in their homes independently, and with dignity. Many Elder Companions serve clients for several years and form meaningful friendships.

MISSION STATEMENT
